FULCRUM PHARMA PLC
("the Group" or "the Company")

Official Opening of Ann Arbor Office to Serve Growing US Customer Base

Fulcrum Pharma plc (AIM: FUL), the drug development and strategic outsourcing services company, is pleased to announce that it has opened an office in Ann Arbor, Michigan as part of the Group's planned expansion.

The Ann Arbor office, which is located at 900 Victors Way, Suite 160, Ann Arbor, MI 48108, will complement Fulcrum's other US office in Research Triangle Park, North Carolina, and will allow the Group to further develop the depth of the Group's resources in drug development, project management and regulatory affairs. Fulcrum operates six other offices throughout the EU and Japan.

Staff recruitment has already begun at the Ann Arbor office and Fulcrum is benefiting from the pool of experienced talent in the region enabling it to recruit drug development staff with considerable experience. The Ann Arbor office will focus on early drug development services, with emphasis on preclinical development.

The opening of the Ann Arbor office represents another significant milestone in the Group's planned expansion, which is seeing Fulcrum increase both the range of its services and the volume of work it is able to carry out for its international client base.

Jon Court, Chief Executive of Fulcrum Pharma, said:

"The opening of the Ann Arbor office is another demonstration of our commitment to the US Market and our provision of drug development services to the biotechnology and pharmaceutical industries. It will enable us to provide an even more efficient service to our customers."
